Education

Thakur College of Engineering & Technology *Mumbai*

Bachelor of Engineering in Information Technology | ***8.26*** *2023 – 2027*

Courses: Data Structures & Algorithms, Operating Systems, Network Security, DBMS, Artificial Intelligence, OOP, Web Development

Projects

Ecommerce-Ops-Autopilot - GitHub | *Next.js, Node.js, TypeScript, Tailwind CSS, PostgreSQL* *July 2026*

- Developed a commerce operations automation platform using Next.js, Node.js, PostgreSQL, Shopify, and Gemini AI for inventory, product, order, notification, and operational KPI management.
- Implemented Shopify webhook synchronization with HMAC verification, PostgreSQL-backed idempotency, retry/backoff, SKIP LOCKED concurrency control, polling reconciliation, API authentication, rate-limit handling, and persistent notification retries; validated with 148 automated tests.

Multimodal Transport Optimizer - GitHub | *Next.js, Java, Spring Boot, PostgreSQL, Python, XGBoost* *March 2026*

- Developed a multimodal logistics optimization platform using A* and Dijkstra's algorithms to generate cost-, time-, and carbon-efficient delivery routes across road, rail, and air transport.
- Built an XGBoost ETA prediction pipeline with 3,000 synthetic records and integrated it into the Spring Boot backend through a Flask ML microservice, achieving 1.56-hour test MAE and 0.967 test R^2 on synthetic evaluation data.
- Implemented city-aware feature mapping, Haversine distance calculation, Docker Compose orchestration, input validation, and graceful ML-service fallback, with 99 Java + 33 Python tests passing.

Internship

Sthapatya Consultants (I) Pvt. Ltd. *Dec 2025 – Jan 2026*

Software Engineer Intern *Pune, India*

- Developed frontend modules using Next.js for a property tax information system used by municipal corporations.
- Integrated REST APIs and implemented data flows between frontend and .NET backend services.
- Worked with SQL Server for querying, maintaining, and validating property-related data.

Skills

Languages: Java, JavaScript, TypeScript, Python, SQL, C, C++
Frameworks: Spring Boot, Next.js, React, Node.js, Express.js, Angular
Databases: PostgreSQL, MongoDB, SQL Server
Tools & Technologies: Git, GitHub, Postman, Docker, Vercel, Render, Prisma, XGBoost

Extracurricular Activities

ACM-TCET *Aug 2025 – Sept 2025*

TE – Creative Head

- Led a group of offline and online creatives for conducting Zephyr 2025.

TSDW-TCET *Aug 2024 – Apr 2025*

Online Creatives Member

- Designed online creative content including social media posts, event promotions, and banners for college sports events such as Reflex 6.0, T-Spark 2025, and Enertia 2025.

Certifications

- **Configure Service Accounts and IAM Roles for Google Cloud** - Google Cloud | View Credential
- **Store, Process, and Manage Data on Google Cloud** - Google Cloud | View Credential
- **Develop AI-Powered Prototypes in Google AI Studio** - Google Cloud | View Credential
